WORK EXPERIENCE

BMWare Business Solutions Enterprises Inc. | *Software Development Intern*

Dec 2025 – Mar 2026

- Maintained and enhanced the HR, Timekeeping, and Payroll System by resolving critical bugs and implementing new features, improving system reliability.
- Developed an Intern Attendance System that integrates biometric device, automating daily attendance tracking for intern staff.
- Maintained the Kids Cancervive System, a blood donation management platform, ensuring data integrity and system uptime.
- Built and deployed the Head Office POS Maintenance System for point-of-sale management across multiple company branches.

PROJECTS

Chainscholar | *Laravel, REST APIs, Blockchain, AI Integration*

2025 - 2026

- Research Management & Verification System using blockchain for tamper-proof record storage and AI for plagiarism detection.
- Served as Capstone Project, recognized as Best in Capstone Project (SY 2025–2026) by the department.

Mobile Applications | *Flutter, REST APIs, CodeMagic CI/CD*

2024 - 2025

- Developed and published multiple Flutter apps to the Google Play Store — including a quotes app, notes app, ordering app, and contact manager — integrating REST APIs for data connectivity and CI/CD pipelines via CodeMagic for automated build and deployment.

Clinic Management System | *PHP, MySQL, Bootstrap*

2023 - 2024

- Campus clinic system for patient records and inventory— won Best in Research Paper and Overall Best Project (SY 2023–2024). Successfully deployed and currently in use at Holy Cross College.

Atad Patrol Management System (APMS) | *PHP, MySQL, Bootstrap, Composer*

2023 - 2024

- A role-based web application for patrol management with separate portals for administrators, raiders, and users.
- Implemented admin modules for managing locations, items, orders, and generating reports.

Barangay Management System | *PHP, MySQL, Bootstrap*

2023 - 2024

- Role-based information system with admin, staff, and resident portals covering document workflows: barangay clearances, business permits, indigency certificates, and blotter reports.

TECHNICAL SKILLS

Primary: Java, Java Swing, Laravel, CodeIgniter 4, Next.js, React, Flutter, PHP, JavaScript

Databases: MySQL, PostgreSQL, Supabase

DevOps & Tools: Git, Vercel, Docker, CodeMagic, Git Bash

Familiar with: Python, C#, Django, Spring Boot, ASP.NET, Express.js, VMware, Cisco Packet Tracer, n8n

Core Competencies: System Design, API Integration, UI/UX Design, Troubleshooting, Debugging

EDUCATION

Holy Cross College

BS in Information Technology

2022 – 2026

ACHIEVEMENTS

- Best in Capstone Project — Holy Cross College (SY 2025–2026)
- 2nd Best Paper Award — SCITE Student Research Colloquium 2026
- President's Lister — Holy Cross College
